ABOUT

As a Creative Designer / Director with 8 years of experience, I am a problem solver, critical thinker, and leader. My experience in creative design and performance optimization has allowed me to deliver high-quality work that brings performance uplift. I am always seeking new challenges to use my creative and strategic abilities to make a positive impact.

I spent the majority of my career in the Creative team of Advertising companies - in Criteo as a Creative Designer, then Remerge as a Senior Creative Designer and Creative Studio Director. My role grew as I acquired more knowledge about the ins and outs of creatives, both in performance marketing and branding. I have participated in and led multiple impactful projects that changed the team's workflow, implemented new tools, formed creative and A/B testing frameworks. My role recently involved people management and hiring, and I'm ready for new challenges.

In my own time, I love spending time with my 2 daughters, running my TikTok account and making crafty things to sell on Etsy.

If you'd like to find out more, I'd love to have a chat over a coffee (virtual or real).

Cheers,

Linh Ha
